Flatten Cardboard Boxes Please!

As with food and beverage containers, cardboard boxes have volume and take up a **lot** of space. The more we flatten the boxes the more cardboard can fit in the cardboard stall of the shed. When the cardboard spills out it clutters the driveway making it harder for WasteWise to gather it and put it into their truck. Thank you for helping us out with this!

This wastes space in the shed.

This conserves space and allows more cardboard to be put in the shed.
